

SAI SOMYA RANJAN PATI

Android Developer

+91 9348448076 | saisomya1@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Results-driven Android Developer with 2 years of professional experience designing, developing, maintaining, and deploying native Android applications using Kotlin and Java. Skilled across the SDLC, utilizing Android SDK, Jetpack Components, MVVM/MVP architectures, Room, and Retrofit. Proven track record across 5+ projects, including successfully shipping 3 live production apps to the Google Play Store, integrating over 100 REST API endpoints, and delivering robust background processing within Agile environments.

TECHNICAL SKILLS

Languages:	Kotlin, Java, XML
Android SDK:	Android Studio, Jetpack Components, MVVM, MVP, MVC, Activities, Fragments, Navigation Component, LiveData, ViewModel, Material Design
Data & Net:	Retrofit, Volley, REST APIs, Room Database, SQLite
Firebase/Async:	WorkManager, Firebase Auth, FCM, Crashlytics, Analytics
Tools/Practices:	Git, GitHub, Postman, Play Console, ADB, Performance Optimization, Bug Fixing, Agile Development

PROFESSIONAL EXPERIENCE

Android Developer Anviam Solutions Pvt. Ltd.	July 2024 – Present Mohali, India
--	--------------------------------------

- Architected, developed, and maintained 5+ Android applications using Kotlin and Java following MVVM, MVP, and MVC patterns.
- Deployed and managed 3 live production applications on the Google Play Store, ensuring stable releases.
- Integrated 100+ REST API endpoints leveraging Retrofit and Volley with structured JSON parsing.
- Built offline-first data synchronization capabilities utilizing Room Database and SQLite local persistence.
- Engineered background operational pipelines with WorkManager for guaranteed periodic data synchronization.
- Resolved critical production issues using Firebase Crashlytics to improve application stability and responsiveness.
- Collaborated within a cross-functional Agile team of 4–5 developers, backend engineers, and QA testers.

PROJECTS

Tankspotter – Android Developer Implemented native background uploading workflows using WorkManager for reliable data synchronization. Refactored network layers with Retrofit to handle complex data payloads, reducing latency.	Kotlin, Retrofit, SQLite, WorkManager
CFA – Android Developer Developed a custom local persistence layer utilizing Room Database for robust offline functionality. Optimized user interface performance and application stability by streamlining database operations.	Kotlin, Java, Retrofit, Room Database
Royal Papers – Android Developer Translated custom commercial specifications into clean UI elements using Material Design. Streamlined REST API integration to optimize application performance across target devices.	Kotlin, Java, Android SDK, REST APIs

EDUCATION

Bachelor of Technology (B.Tech) Centurion University, Bhubaneswar	Graduation: 2024
---	------------------

CORE COMPETENCIES

Soft Skills: Problem Solving, Agile Team Collaboration, Technical Communication, Adaptability, Time Management | **Languages:** English, Hindi, Odia
